Dear Mustafa,

I am writing to you from [Powercoders](#), the Coding Academy for refugees and migrants. You filled out a form on our website that you are interested in the **Powercoders Bootcamp** some time ago. Great to hear that you're interested in our program!

We have good news: From today until 10 January 2023, we are **accepting applications** for our spring 2023 program (starting in March 2023).

Anyone living in Switzerland can apply. The majority of seats are reserved for people with a refugee status. Most likely, during our bootcamp 1 day per week will take place in Bern, 2 days in your local hub (Bern/Zurich/Lausanne), 2 days remote.

Please read [our website](#) carefully before you apply, and take your time to fill the **application form**. Consider the form like an application letter.

Do you have more questions? Join one of our two **info sessions** that are coming up:

- Monday, 5 December 2022, 6-7 pm: [Sign up here](#)
- Tuesday, 20 December 2022, 6-7 pm: [Sign up here](#)

As part of the application process, we'll ask you whether you have already completed any online courses by yourself. If you haven't started, great if you do so now. You find some recommendations on [our website](#) in the section GETTING READY.

We're very much looking forward to receiving your application and maybe welcoming you at one of our info sessions.

Best wishes,

Linus & the Powercoders Team
