Dear Mustafa

Thank you for the submission of the additional task. We have good news for you: You're invited to our interview day!

The interview day consists of a personal conversation (25min), an IT test (60min) and an English test (60min). The interview day will be held online.

The bootcamp (27 March - 29 June 2022) is a full-time commitment. We recommend to stop any income-earning / language courses during that time. The bootcamp is followed by a 6-12 month internship in which you'd earn a minimal monthly salary (usually around 600 CHF/month).

If you are supported by social welfare or RAV/ORP, please discuss with your contact person there that you would like to participate in our program (if not already done). We want you to be aware of these conditions and ask you to please let us know openly now if you have any questions or concerns around them.

Your interview day:

Wednesday, 25 January 2023

Your interview times:

- Personal Conversation: 9:30-10:00 (morning)
- IT Test: 10:00-11:00 (morning)
- English Test: 11:00-12:00 (morning)

All of these take place online on Zoom. We'll share the Zoom links with you once you have confirmed your availability. Please join the calls prior to each part 5-10 min early.

Requirements to join online (from your home)

- You are in a room on your own. It's quiet so that you manage to concentrate.
- You have a reliable computer or laptop, with a physical keyboard (not touchscreen keyboard).
- Your camera is turned on. Your audio and microphone are working well. --> Best to test this with a friend or a tool in advance.
- You have a reliable and fast internet connection. --> Complete a speed test [here](#). Download speed should be min. 8 Mbps; upload speed min. 1.5 Mbps.
- You have the following programs installed and tested:

(1) Firefox or Google Chrome browser.

(2) Notepad++ for Windows (download [here](#)), if you have macOS: TextMate (download [here](#)).(3) Zoom (download [here](#), please read the [instructions](#) carefully)

The interview parts

(A) Personal Conversation: We want to get to know you as a person. As part of the conversation, we will ask you to tell us about something you have achieved or are proud of (e.g. a work project, planning a football event, participating in an art exhibition, setting up a family celebration, etc.) If you want, you can screen share pictures, a Powerpoint presentation, a video, or more (max. 3 min).

(B) IT Test: We want to see how you work with the computer. The test consists of two parts: (1) You follow basic instructions and use HTML, CSS and very basic JavaScript as you are told in the instructions. No previous knowledge required beyond what you applied in the [code.makery](#) tutorial for the additional task. (2) A logical thinking part (no preparation required).

(C) English Test: We'd like to see how well you read and understand English.

Confirmation

Can you please confirm via [this form](#) - **best till tomorrow**:

- that you are available on the indicated date and times?
- that you're able to join online and fulfil the requirements as indicated above?

If you are unable to attend any of the proposed dates, please reply to this message with the specific reasons and we will try to find another solution. Please note, however, that we conduct around 60 interviews and that this organisation is quite complex.

If you don't have what you need to join online from home, please first try to organize yourself, e.g. by borrowing a device from a friend. If you don't find a solution or have any concerns, please let us know and we will find a solution together.

We look forward to your answer and to meeting you soon!

Best wishes,

Linus for the Powercoders Team
